## LANGUAGES

English, Hindi, Punjabi

## LIMITLESS

- Played a pivotal role in creating a dynamic Content Management System (CMS) for the Limitless project.

- Empowered administrators to efficiently add, edit, and manage data, optimizing data presentation within the app.

- Designed and implemented a dedicated Partner Dashboard offering detailed analytics.

- Provided stakeholders with crucial insights, including total users, platform distribution, and comprehensive activity metrics.

- Actively contributed to the seamless integration of new features into the existing Limitless project architecture.

## NEOU FITNESS

- Migrated codebase from React.js to Next.js to improve performance and SEO.

- Designed and implemented attractive UI enhancements to enhance the user experience.

- Collaborated with the team to ensure smooth development

and seamless integration of new features.

## Go-BOSS

- Created new UI components based on client requirements, enhancing the visual appeal and user interaction.

- Developed backend functionalities in Node.js, including the creation of APIs to support various features.

-Actively collaborated with the team, contributing to the project's overall development and successful delivery.

## RTS

- Developed a responsive web application using Node.js and React based on internal team's requirements.

- Implemented role-based access control and other features to meet the project specifications.

- Successfully delivered a fully functional project that is currently being used by our company.
