Detail-oriented Full-Stack Developer (Frontend-focused) with 4+ years of experience building high-performance, real-time applications using React.js, Next.js, JavaScript, TypeScript, Node.js, and AWS. Proven expertise in scalable UI development, offline-first design, and WebSocket-driven real-time systems. Adept at collaborating in Agile teams, optimizing performance, and delivering seamless digital experiences for global users. Seeking frontend or full-stack opportunities where UI excellence meets scalable backend engineering.

## CORE SKILLS

- Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Redux, React Native
- Backend: Node.js, Express.js, RESTful APIs, WebSockets, Microservices
- Databases: MongoDB, MySQL, Firestore, IndexedDB, Redis
- Cloud/DevOps: AWS (EC2, S3, Lambda), CI/CD, Git/GitHub
- Practices: Agile (Scrum), Code Reviews, Mentoring, Unit Testing, Performance Optimization

## PROFESSIONAL EXPERIENCE

### Skyfobs Nextgen Cloud Service — *Software Engineer*

SEPTEMBER 2024 - AUGUST 2025

- Designed and developed a real-time chat platform supporting 1000+ concurrent users using WebSockets with instant delivery, read receipts, and typing indicators.
- Integrated IndexedDB for offline-first workflows, reducing API calls by 35% and improving reliability in low-network conditions.
- Built modular, reusable React components and scalable frontend architecture, reducing feature delivery time.
- Enhanced platform resilience with AWS deployment, ensuring smooth scaling during traffic spikes.

### VueData Technologies — *Software Engineer*

NOVEMBER 2021 - SEPTEMBER 2024

- Migrated production apps from React to Next.js, achieving a 30% faster load time and major SEO improvements.
- Built custom CMS dashboards and analytics platforms with React, Redux, and Node.js, enabling better client insights.
- Developed backend APIs in Node.js/Express, integrating with MongoDB and MySQL for scalable data handling.
- Mentored junior developers, led code reviews, and improved code quality through reusable design patterns.

**VueData Technologies — *Software Engineer Trainee*** OCTOBER 2021 - NOVEMBER 2021

- Assisted in frontend and backend development using React, Node.js, and MySQL.
- Gained experience in Agile practices, sprint planning, and collaborative software delivery.

## KEY PROJECTS

- **Real-Time Chat Platform**: End to end WebSocket chat app with instant delivery, typing indicators, and read receipts on mobile-first UI.
- **Real-Time Odds & Events Platform**: Scalable WebSocket + IndexedDB client enabling smooth live sessions with 1000+ active users.
- **Fitness Platform Migration**: Legacy React app migrated to Next.js with offline-first IndexedDB support, boosting Lighthouse scores.
- **Dynamic CMS**: Partner CMS with real-time insights, improving data visualization and decision-making.
- **Video Streaming Platform**: Custom UI components and Node.js APIs, ensuring high-quality streaming and reduced buffering.
- **Recruitment Tracking System**:Full-stack solution with role-based access and secure admin tools.

## EDUCATION

Degree — *Bachelors in CSE* 2016 - 2020
Chandigarh University.

High School — *CBSE* 2015 - 2016
Govt. Model Sr. Sec. School.

## INTERESTS

Gaming, Football, Singing

## LANGUAGES

English (Fluent) | Hindi (Fluent) | Punjabi (Native)
